## Library Committee Report.

The committee have attended to their duties, and think the interest of the library well kept up. The library was replenished with its usual supply of books last spring and we think the patrons have cared well for the books, and promptly returned them in good order. The librarian has attended well to her duties and kept everything in a neat and orderly manner much to the satisfaction of the committee.

## Board of Health Report.

The Board of Health present their annual report. The contagious diseases have been as follows: Measles one case, typhoid fever four cases, membranous croup one case, diphtheria two cases; placarded the house, analyzed the water supply and examined the surroundings of the house. Analysis of the water proved three cases of typhoid fever to be caused by sewerage from barn and sink drain into the wells. One case caused by inhaling gas from an old unused well near sink drain; ordered disinfectants used to prevent contagion. To protect the family a sample of well water was sent to the state chemist for analysis. The analysis proved the water unsafe to use for drinking purposes. Two deaths from typhoid fever and one from membranous croup. On notification of diphtheria the house was placarded and disinfectants used to prevent contagion. Antitoxine used in one case. All cases recovered. Cause not known. Fumigated the house after notice of the abatement of the disease. We enforced the law in all cases to best of our ability. Death rate unusually large. Many were elderly people subject to some chronic disease.

Respectfully submitted,

FRED P. JONES, M. D.	} Board of Health.

## SCHOOL REPORT.

There has been full an average attendance at the several schools during the school year, although there has been less terms of school than usual and we think it has been a move in the right direction. As by pursuing this course we can procure better teachers and take a portion of the school money to get the scholars to school, and when there are larger schools there is more interest manifested and the teachers have more to work for and the results are very much better. We feel led to believe that with the encouragement of the patrons of the school

we can have less schools than this year and receive more benefit from the money expended. This has been on the whole a successful school year and the scholars have made a good showing at the examinations, and all we need to have first class schools is the hearty co-operation of the citizens and voters of the town.

### ROLL OF HONOR,

Including the names of all scholars who were present every half day of a term without being tardy.

No. 1. First term: Alison Norton, Winnie Norton. Second term: Jennie H. Brown, William W. Crane, George E. Brown, Elmer H. Nelson, Walter R. Nelson, Bessie J. Bowlby, Arthur B. Bowlby. Third term: Walter R. Nelson, Elmer Nelson.

No. 3. First term: Ada B. Lear, Alice Louden, Andrew Louden. Second term: Ada B. Lear.

No. 4. First term: Florence Chamberlain. Second term: Florence Chamberlain, Ethel Chamberlain, Kate Richardson, Nellie Chamberlain. Third term: Jennie F. Lear, Josie B. Pike, Kate E. Richardson.
